

Ready to Ride Now?

Instantly Hail a Taxi on a Smart Phone or Tablet

An Option for SF Paratransit Taxi Users

Flywheel-The Taxi App works with many local taxi companies, so it's easy to hail a nearby taxi when you need one.

Choose the type of taxi you want.

Select **1** an accessible Ramp Taxi that accommodates a wheelchair or **2** any nearby taxi or SUV.

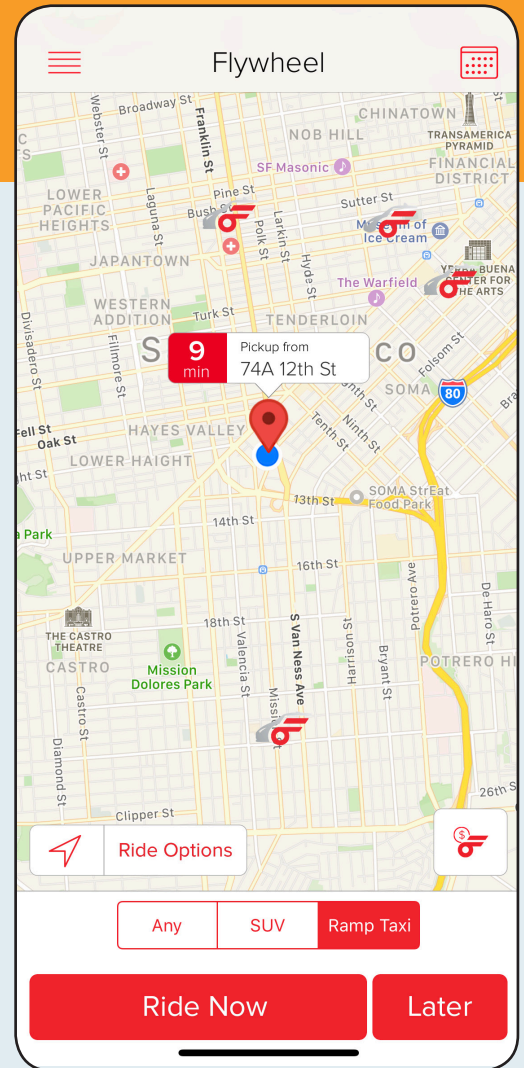

You can monitor your trip.

Your screen shows where your taxi is and when it will arrive.

It's free.

The app is free to download. Plus, you are never charged service fees when you pay your fare with your SF Paratransit Taxi Debit Card. To pay, hand your card to the driver at the end of your trip, just as you usually do.

As always, you may dial a participating taxi company of your choice if you prefer to schedule your rides by phone.
